WORK HISTORY

Software Engineer, 10/2022 - 02/2024
MadeLabs – Remote

- Collaborated on both front-end and back-end tasks, leveraging expertise in technologies such as Typescript, React.js, Node.js, C# and many others, to deliver robust and integrated solutions.
- Performed ongoing maintenance on existing software systems, proactively identifying and resolving software defects to ensure optimal performance and user satisfaction.
- Provided tailored solutions for Madelabs' clients, ensuring satisfaction and project success through effective communication and problem-solving.
- Assist fellow team members and foster positive work relations via teaching.
- Independently executed a comprehensive integration of Stripe as the payment processor for subscription services, achieving seamless functionality.
- Revamped a rich text editor using Draft.js, while ensuring long-term scalability and maintainability.

Full-Stack Developer, 04/2021 - 10/2022
United Water Restoration Group – Ormond Beach

- Independently conceived, designed, and developed two full-stack applications utilizing Vue.js for frontend and Node.js for backend within a year timeframe.
- Led all phases of the development lifecycle, from initial concept to production deployment, ensuring adherence to project timelines and quality standards.
- Participated in requirements gathering to solidify prerequisites and determine the best technical solution to meet business needs.
- Assisted in the development of an estimation app that increased cash job sell rate by 20%.
- Conducted comprehensive training workshops for associates across various locations in Florida, showcasing essential features and best practices of our estimation app. Traveled extensively to ensure widespread adoption and proficiency among team members.

EDUCATION

Certificate Of Completion : Full Stack Software Development, 04/2020
Boise Code Works - Boise, ID

- 13 Week immersive course completed 500+ hours learning and utilizing best practices in software development.
- Developed multiple full stack applications.
